Bringing Science to the Public

Cancer Without Disease: Keeping Microscopic Tumors Dormant

Nava Almog, Ph.D.

*Associate Program Officer, Oncology
Dr. Miriam and Sheldon G. Adelson Medical Research Foundation*

Tuesday, December 10, 2013 7:00 PM

*Seton Auditorium, Steward St. Elizabeth's Medical Center
736 Cambridge Street, Brighton, MA. 02135*

For more details go to:
www.cancer-systems-biology.org

Parking and refreshments provided

*Do you know that
nearly everyone has
microscopic dormant
tumors that are harmless?*

*Find out how scientists
are trying to identify key
factors to keep tumors
from growing.*

Sponsored by:
Center of Cancer Systems Biology,
GeneSys Research Institute
and Integrative Cancer Biology Program,
National Cancer Institute/NIH
