# *Brain Tumors: Challenges to Finding a Cure*

**David R. Hurwitz, Ph.D.**

Chief Scientific Officer, National Brain Tumor Society

**Tuesday, April 23, 2013 7:00 PM**

Seton Auditorium, Steward St. Elizabeth's Medical Center

736 Cambridge St. Brighton, MA 02135

[www.cancer-systems-biology.org](http://www.cancer-systems-biology.org)

There are things in life that can wait.  
A cure for brain tumors isn't one of them.

Every day more than **575** people are diagnosed with a primary or metastatic brain tumor.

Brain tumors are the most common solid tumor in children.

There are over 120 different types of brain tumors, making effective treatment very complicated.
